\$100!

Rebates valid for installs on or after March 1, 2019. Limited time offer valid for installs between August 15, 2019 and October 31, 2019.

Heating and Cooling Program Rebate Measures*	Single Family	Multifamily
Air-Source Heat Pump Replacing Air Source Heat Pump AHRI Rated		
SEER 15 – Replace Operating Air-Source Heat Pump	\$400+\$100**	\$250+\$100**
SEER 16-17.99 – Replace Operating Air-Source Heat Pump	\$500+\$100**	\$300+\$100**
SEER 18+ – Replace Operating Air-Source Heat Pump (HSPF must be ≥10.0 to be eligible)	\$600	\$350
Available only when the replaced Air-Source Heat Pump meets operating/early replacement requirements. There is no failed equipment status rebate available for this improvement measure.		
Air-Source Heat Pump Replacing Central Air Conditioner and Electric Resistance AHRI Rated		
SEER 15 – Replace Central Air Conditioner and Electric Resistance Furnace	\$600+\$100**	\$400+\$100**
SEER 16-17.99 – Replace Central Air Conditioner and Electric Resistance Furnace	\$750+\$100**	\$450+\$100**
SEER 18+ – Replace Central Air Conditioner and Electric Resistance Furnace	\$900	\$500
Ductless Systems† AHRI Rated, Per Outdoor Unit		
SEER 19+ – Ductless AC - Replace Central Air Conditioner		\$200
SEER 19+ – Replace Air-Source Heat Pump		\$300
SEER 19+ – Replace Central Air Conditioner and Electric Resistance Furnace		\$500
SEER 19+ – Installed With Existing Gas Heat		\$500
†Available only in a dwelling unit with existing gas heat, but where there is no existing ductwork to the space to be conditioned by the Ductless Air-Source Heat Pump and where installation of a properly sized ducted system to that space is cost prohibitive.		
Ground Source (Geothermal) Heat Pump AHRI Rated		
EER 23+ – Replace Electric Resistance Furnace	\$1,800	Not Available
EER 23+ – Replace Ground Source (Geothermal) Heat Pump	\$700	Not Available
EER requirements above are partial cooling load. Ground Source (Geothermal) Heat Pump rebates are only available when replacing a ground source heat pump or electric furnace, not when there is existing gas heat.		
Central Air Conditioner AHRI Rated		
SEER 15 – Replace Central Air Conditioner	\$250+\$100**	\$200+\$100**
SEER 16 – Replace Central Air Conditioner	\$450+\$100**	\$350+\$100**
SEER 17+ – Replace Central Air Conditioner	\$650	\$500
Electronically Commutated Motor (ECM)		
Factory Installed in a New Gas Furnace or Air Handler (Included in AHRI Efficiency Rating)		\$50
Factory Installed in a New Gas Furnace or Air Handler (Not Included in AHRI Efficiency Rating)		\$50
Retrofit ECM Replacing Permanent Split Capacitor Blower Motor (Note: This measure is not affected by AHRI rating)		\$50
ECMs installed with Ductless Air-Source Heat Pumps are not eligible for a rebate.		
Smart Thermostat		
Qualifying Smart Thermostats: see list below		\$50

*Offer applies only to qualifying purchases. Visit AmerenMissouriSavings.com/HVAC for full program details. For new construction projects that do not involve replacing systems, please refer to the Heating and Cooling program new construction rebate chart for program details.

†Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

** To be eligible for the \$100 additional rebate, existing systems must be replaced with a new qualifying system between August 15, 2019 and October 31, 2019. New construction, geothermal and ductless systems do not qualify.

General Eligibility Information

- The equipment must meet the program's eligibility requirements listed here to qualify for the rebate. Please confirm the eligibility of your system with a Participating Contractor.
- The dwelling must be associated with a current Ameren Missouri residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:
 - Single Family Eligibility
 - Single family residence
 - Building with four units or fewer, in any configuration
 - Row house, which is defined as a single family dwelling unit that shares common vertical walls only with other single-family dwelling units
 - Multifamily Eligibility
 - Multistory, multifamily dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit
- A Participating Contractor must install qualifying equipment, and that contractor must be considered a Participating Contractor by the Heating and Cooling Program at the time of installation. Participating Contractors can be located by visiting AmerenMissouriSavings.com/HVAC or calling 1.877.215.5752. When you call the Participating Contractor, mention that you are interested in Ameren Missouri rebates.
- All rebate applications and supporting documents must be submitted by a Participating Contractor within 30 days of installation by December 15, 2021.

New Equipment Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER) or Energy Efficiency Ratio (EER) levels set forth by the program and documented by the Air Conditioning, Heating and Refrigeration Institute (AHRI).
- Existing operating CAC and ASHP being replaced must have a nameplate SEER rating of 12.0 or lower.
- Existing operating GSHP being replaced must have a nameplate EER rating of 12.0 or lower (partial cooling load).
- Existing failed CAC, ASHP or GSHP does not require maximum nameplate SEER/EER rating.
- Existing equipment that is operating must produce a temperature drop across the coil to be classified as early replacement. If outside temperature is below 65 degrees, the Participating Contractor must verify that the compressor is operational.
- Rebate eligibility is dependent on the existing heating source. Please see the chart below for eligibility.

Does your house have a(n):	Then you may qualify for these program rebates		
	Air Conditioner	Air-Source Heat Pump/Ductless	Ground Source Heat Pump
Air Conditioner With Gas Furnace?	Up to \$650	No [†]	No
Air Conditioner With Electric Furnace?	Up to \$650	Up to \$900	Up to \$1,800
Air-Source Heat Pump With Gas Furnace?	No	Up to \$600	No
Air-Source Heat Pump With Electric Strip Back-Up Heat?	No	Up to \$600	No
Ground Source Heat Pump?	No	No	Up to \$700

*Some restrictions may apply. Valid through December 15, 2021. Visit AmerenMissouriSavings.com/HVAC or call 1.877.215.5752 for full program details.

[†]Available only in a dwelling unit with existing gas heat, but where there is no existing ductwork to the space to be conditioned by the Ductless Air-Source Heat Pump and where installation of a properly sized ducted system to that space is cost prohibitive.

Additional \$100 Offer FAQs

1. Q: How much is the limited-time additional rebate?

A: Customers will receive a \$100 rebate that is in addition to the regular program rebates. To be eligible for the additional \$100 rebate, systems need to be replaced with a new qualifying system between August 15, 2019 and October 31, 2019. Eligibility will be based on the installation date indicated on the invoice and application paperwork submitted by the participating contractor. Installed systems must meet all other program eligibility criteria. New construction, geothermal and ductless systems do not qualify. Visit AmerenMissouriSavings.com/HVAC for rebate and eligibility information.

2. Q: Will I still be able to get the regular program rebate too?

A: Yes, the limited-time \$100 rebate is in addition to the existing Ameren Missouri Heating and Cooling Program rebates on qualifying equipment.

3. Q: How will I receive my additional \$100 rebate?

A: Your participating contractor will submit the rebate application on your behalf. You will receive one check that includes both the current program rebate and the additional \$100 rebate. You can expect to receive your rebate check within eight weeks from the date we receive your application. To check the status of your rebate, please call 1.877.215.5752 or email savings@amerenmissouri.com.

4. Q: How long does this promotion last?

A: The additional \$100 rebate will be available for qualifying equipment installed between August 15, 2019 and October 31, 2019. Eligibility will be based on the installation date indicated on the invoice and application paperwork submitted by the participating contractor.

5. Q: Does my participating contractor have to do anything special for me to get this additional \$100 rebate?

A: No, there's nothing additional required of your participating contractor for you to be eligible for the additional rebate. However, keep in mind, your system must be installed within the promotional period, which is August 15, 2019 through October 31, 2019. Eligibility will be based on the installation date indicated on the invoice and application paperwork submitted by the participating contractor. Tell your contractor you're interested in the additional \$100 rebate from Ameren Missouri when you make your initial phone call.

6. Q: What happens if my participating contractor can't get my new system installed during the promotional period?

A: To be eligible for the additional \$100 rebate, systems must be installed between August 15, 2019 and October 31, 2019. We recommend that you ensure your contractor is aware that you want to take advantage of the additional \$100 rebate during your initial conversation and schedule the installation accordingly.

7. Q: Is this the only time this additional \$100 rebate will be offered this year?

A: Yes, this is a limited-time additional rebate.
