\*Replacement refers to removing an existing system and installing a new system. For projects that do not involve replacing systems, please refer to the new construction rebate chart for program details.

<sup>†</sup>Offer applies only to qualifying purchases. Visit [AmerenMissouriSavings.com/HVAC](https://www.AmerenMissouriSavings.com/HVAC) for full program details.

<sup>‡</sup>Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

## General Eligibility Information

- The equipment must meet the program’s eligibility requirements listed here to qualify for the incentive.
- The dwelling must be associated with a current Ameren Missouri residential electric account.
- To be eligible for participation in the program, the dwelling unit must be one of the following:

### Single-Family Eligibility

- Single-family residence
- Building with four units or fewer, in any configuration
- Row house, which is defined as a single-family dwelling unit that shares common vertical walls only with other single-family dwelling units

### Multifamily Eligibility

- Multistory, multifamily dwelling units with greater than four units that also share a horizontal surface (floor or ceiling) with another dwelling unit

- A Participating Contractor must install qualifying equipment, and that contractor must be considered a Participating Contractor by the Heating and Cooling Program at the time of installation. Participating Contractors can be located by visiting [AmerenMissouriSavings.com/HVAC](http://AmerenMissouriSavings.com/HVAC) or calling 1.877.215.5752. When you call the Participating Contractor, mention that you are interested in Ameren Missouri rebates.
- All incentive applications and supporting documents must be submitted by a Participating Contractor within 30 days of installation and by December 15, 2023.

## New Equipment Rebate Eligibility

- Newly installed equipment must meet or exceed the Seasonal Energy Efficiency Ratio (SEER2) or Energy Efficiency Ratio (EER2) levels set forth by the program and documented by the Air-Conditioning, Heating and Refrigeration Institute (AHRI).
- Existing operating CAC and ASHP being replaced must have a nameplate SEER rating below 14.0.
- Existing operating GSHP being replaced must have a nameplate EER rating of 12.0 or lower (partial cooling load).
- Existing failed CAC, ASHP or GSHP does not require maximum nameplate SEER/EER rating.
- Existing equipment that is operating must have an operational condenser to be classified as early replacement.
- Incentive eligibility is dependent on the existing heating source. Please see the chart below for eligibility.
